
Domino Combinations of 5

Material:

- ♦ Domino 5 Combination Set (different color per student)
- ♦ Domino Combinations of 5 and 10 board

Directions:

1. Players place their dominos face down in a pile and draw 5 dominoes.
2. Player A begins with the domino with the least total number of dots in the starting place on the Domino Combinations of 5 and 10 board.
3. Player B determines if they have one side of a domino that would combine with the end of Player A's domino to make a total of 5 dots.
4. If Player B does not have a domino, they pull one from their draw pile and play ends.
5. Players continue to take turns following the domino train until all spots have been filled.
6. The player with the most dominos on the train, wins.
