
Race to the Fraction Finish

Material:

- ◆ Race to the Fraction Finish Cards
- ◆ Race to the Fraction Finish Board

Directions:

1. Players set up the activity by placing out the shuffled Race to the Fraction Finish Cards facedown and one Race to the Fraction Finish Board. Players will be working together to get one racer (unit fraction) to the finish first by filling in the four corresponding spots with same size fractions.
2. Player A turns a card over and determines which of the racers on the board is the same size. If Player B agrees, Player A places that fraction card in the first space of that racer's row.
3. Player B takes a turn.
4. Players continue to alternate turns until one racer reaches the finish line with all four fractions in place.
